

UPTIGHT ABOUT THE DRAFT?

THE DRAFT IS UNFAIR!

Guys who can't afford to go to college get drafted while rich kids get deferments. Men lose their lives in a meaningless war against a people who (like themselves) are being killed because rich Americans want to become richer.

We can stop the war by refusing to kill Vietnamese peasants. And we can change America by organizing against war, discrimination, and economic inequality.

There will be a community meeting in Sunnyvale to discuss the draft. Come and get information about the draft, discuss the war and what you can do.
