BROTHERS:

The guy who is handing out these leaflets is an inductor, just like yes. We also happens to be a draft commeder, which means that he can tell you a few things about your rightward aftermatives that the army won't tell you. He has a copy of the Army Medical Regulations and a copy of the Salective Service Regulations, which you are velcome to look at

This is a statement of personal belief-why I oppose the Army and the Draft:

As a kid I was taught that people had a right to control the institutions that governed them We called this demosracy. In the past several years I've learned that our government is trying to keep people around the world from having democracy imerica's bug bosses are kraze denying as our freedom to make we fight Vietnamese for their fraedou.

In VEREZUM South Vistness there is a government called the Republic of Victora Because the U.S. Supports the Republic of Vietnam, we know a lot about it. We know that it is earrupt and totalitarian. We know that its only claim to legitimacy rests in the fact that it overthrew the junta that overthrew the junta that .

In South Victors there is another government, the Mational Liberation Front of South Vietnam. The Matteral Liberation Front governs most of rural South Vietnam. Americans usually sail the WIP the "Viet" Cong. or "The Political Arm of the Viet Cong." Although the Wiet Coss is spearhoaded by Communists, it represents a broad scelition of untionalist groups. The political program of the MLF is not Communist, but one suspects that the fact that most of the suspect for the FLF comes from Socialist countries (such as the Democratic MEXIMATER Republic of (North) Vietnam) HENNINGER will lead to the eventual establishment of a Socialist South Victory

The U.S. is pashing a pacification program - initating the program of the WLF. We are trying to push land reform on the Saigon government, for this is hew the NLF wins "the minds and hearts" of the people. If the May has the support of the Victormose people because it helps them thy doesn't the American Government support

the Viet Come?

There is, of course a complicated answer to this question. In short, the men who control the U.S. government are those with power and wealth. Many who support the Mar on Vietnam make millions from it. Others need to be able to invest in Victness or to sell their products to the richer Victnesses, to stay on top. This is not to say that IERSEXEMEXERSEXEMEXESSESSES AND LARBERT LARBERT AND ACCOUNT OF THE BEAX WHAT everyone who supports the way is profitting from it. I only claim that these who made the decision to impade their what I call it Vietnes profit, as a class, from such were. Wow, only the resistance of the Vietnamuse has made the war too costly for nows of those in power, W and this is shy the U.S. may stop short of someoring "ietnam. The Mar, to those in power, is merely a question of costs

BUT FOR US -IN THERE REALLY ANY REASON WHY WE SHOULD HILL OR BE HILLED INVADING AMOTERR MAN'S LAND

I won t go.
