

MY INDUCTION BOUND FRIEND:

The time has come for you to stop and think. The decision whether or not to go into the service. Don't you think that it is unusually strange that we have very little choice in the matter. We face either a minimum of 2 years in the service or on the other hand up to 5 years in jail if we refuse. Even though that choice isn't good I hope you'll make the right one by not going. I would hate like hell to see you as a statistic aimed at something that is definitely wrong, and it is wrong unless you think that killing is a good thing.

You don't have to go --SO DON'T. It's as simple as that. Don't let these people take you and brainwash you into killing and destroying. It's a shame that 19 and 20 year olds have to "help" our country by playing these silly war games, and by dumping napalm on innocent women and children in Vietnam.

If you don't want to be a part of this Bullshit you'd better stand up now and say so or you'll be sucked right in and be forced to do many things that are totally absurd. Thank you.
