

EVERYONE IS INVITED TO THE 2nd
ACT OF A COMIC FARCE ENTITLED:

"How to Stamp Out Student Activism

While Protecting Your Vital Interests (\$\$)"

Written by the Central Intelligence Agency and directed by
the Stanford University Administration.

Curtain: 8 P.M. Geology 320 Monday, Feb. 5

Due to inadequate coverage in the Daily, most students are unaware of the circumstances surrounding and the implications of the CIA demonstration case. The singling out of 20 anti-war activists because "they were the only ones we could identify" (Joel Smith and Bill Whyman) is nothing but a blatant attempt to intimidate the anti-war movement.

The fact that Stanford's anti-CIA demonstration was mild in comparison to those across the country and didn't interfere with CIA recruiting (unfortunately) only adds a touch of irony to the situation.

In behalf of the defendants, whose crime consists in their advocacy of radical social change, we invite the campus to participate in the

OPEN HEARING OF THE STUDENT JUDICIAL COUNCIL

on the CIA and its involvement with Stanford University.

We ask the student body to let Stanford's owners know that we will have not only booze, women off campus, contraceptives, and social and educational reform, but also justice and self determination for our community.

There are questions that must be asked. Why can't we hear from and debate with Stanford's administrative brass on matters that concern our community? Why do they refuse to speak out? How can Mr. Winters of the CIA say "we don't speak to groups", while the Dean of Students is defending his right to freedom of speech?

Please join us and speak up. The script is not yet written. The floor will be open.

signed,

Ad Hoc Committee of Students Against Intimidation
