

4/13 Save

April 13, 1969

As the President has made clear in his statements on April 10 and 11, the occupation of the Applied Electronics Laboratory, by preventing the normal conduct of University business in University offices and laboratories, is a violation of the University Policy on Campus Disruptions. The violation has been referred to the Stanford Judicial Council.

The President and I are continuing to deal with this disruption by internal means. With the advice of the Faculty Consultative Group on Campus Disruptions, the President has decided to continue the process of identifying participants in the occupation, as a necessary prelude to the SJC's normal procedures. Members of the faculty and staff are being asked to participate in that identification process.

The following request is being made to a number of members of the faculty and staff:

"A number of violators have been identified and are being charged, but many are as yet unidentified. The University needs assistance from officials, both faculty and administration, to make further identification of violators in a systematic way in the near future. This procedure for making identifications will be strictly in accord with the University Policy on Campus Disruptions and with the Statement on Community Responsibility that was recently passed by the Senate and endorsed by the Academic Council. Are you willing to assist in making identification of the violators?"

The following people are among those who already have been asked and have agreed to participate in the necessary interviewing:

Mr. R.F. Bacchetti	Mr. B.G. Hinchliffe	Mr. F.G. Riddle
Prof. G.L. Bach	Prof. W.M. Kays	Mr. M.M. Roberts
Mr. D. Carlson	Prof. D. Kennedy	Mr. R.M. Rosenzweig
Prof. J.P. Dawson	Prof. J.K. Mann	Prof. H.L. Royden
Prof. J.M. Gere	Prof. D.M. Mason	Mr. J. H. Ruetz
Prof. J.L. Gibbs Jr.	Prof. W.F. Miller	Prof. L.V. Ryan
Prof. W.O. Hamilton	Mr. F. Newman	Mr. D.C. Weber
Prof. H. Heffner	Prof. J.M. Pettit	Prof. R.E. Wolfinger

The procedure will be carried out in the following way, from tomorrow on. Two of these interviewers will approach individuals in the building in turn, announce their own identity, and ask individuals to leave the building. Any who refuse to leave will be asked for identification.

We hope there will be voluntary cooperation with this procedure. We are encouraged in this hope by the strong moral convictions expressed by many participants in the demonstration. That hope is embodied in the following statement that will be used by interviewers:

"I remind you that your obligation to identify yourself to me under these circumstances is specifically imposed by the University Policy on Campus Disruptions. I understand, moreover, that many of you have decided that your moral concerns and tactical judgments make you willing to face University disciplinary processes in order to achieve your objectives. Giving your name to me now is consistent with these moral principles."

Richard W. Lyman, Provost
