

April 11, 1969

American Federation of Teachers Local 1316, Stanford Employed Graduate Students, declares its support for the demands of the April Third Coalition and its participation in the efforts now being made at the Stanford Electronics Laboratories to implement those demands.

This action was taken today at a noon meeting held outside the laboratory. There will be a general meeting of the Union membership Sunday evening at seven-thirty in the Tressider Small Lounge to consider possible further action.
