

meeting

4/13 Save

Stanford Employees Association  
this Tuesday, April 15th at 7:30 p. m.  
Bishop Auditorium, Business School

ALL EMPLOYEES ARE INVITED

CHEMICAL AND BIOLOGICAL WARFARE MEAN

germ warfare, nerve gas, defoliation, destruction of food supplies,  
pollution of the air and the water---in sum, destruction of life.

the black plague(a biological research project) wiped out one-third  
of the population of Europe. We now have it within our power to wipe out  
all of humanity. Do we want to channel our power in this direction?

As EMPLOYEES OF STANFORD UNIVERSITY

we urge the Board of Trustees, the Administration, and the faculty  
of Stanford University to stop research on weapons of death.

As WORKERS AND PARENTS, AS HUMAN BEINGS WE WANT TO PRESERVE LIFE

The STUDENTS CRY FOR HELP.

They ask for help. We support their right to live. We support their  
human goals for administrative action now in cooperation with the entire  
Stanford community on setting the guidelines for new, more constructive research  
and work at this university.
