

TRUSTEES EVADE ISSUES

COMMUNITY MEETING

While 30 to 40 members of the April 3rd Movement picketed outside the Trustees' meeting yesterday, the trustees attempted to beat a tactical retreat. They think that by recommending a moratorium on CBW research they will pacify the university community. However, by refusing to speak to the issues of counter-insurgency, classified research, Vietnam-related work and present contracts in CBW, they have evaded our demands. Furthermore they have refused to hold an open decision-making meeting on the future of SRI.
