

The administration and the trustees and their cop squad of faculty members can never try us.
It is they who are on trial.

We know we are right; we know we are together.

We know the trustees, with their electronics and their oil and their planes and their bombs
And the administrators, who are their lackeys

And the cop faculty, who are among the emptiest and the saddest people on earth

They cannot judge us.

WE HAVE STANFORD UNIVERSITY BY THE BALLS.

WE ARE JUST BEGINNING TO SQUEEZE.
