COMMUNICATIONS DEPARTMENT STRIKE SHEET

Contact: Dept. Of Comm.
Redwood Hall 315
Ext. 4904
Jack Sanders
Susan Harris
Bonnie Kober

At 9:00 A.M. the Communications Department met to give reports of the various group strike activities and to discuss new business.

REPORTS

1) A Coordinating Committee meeting was held yesterday, when it was decided to call this morning's general meeting. We will begin each day this week with a general meeting at 9:00 A.M. A phone tree is being worked out.

2) T.V. Program Pat Crowley

The T.V. people are having trouble getting interest from the stations for their show because apparently the Stanford Strike is so low keyed that people outside don't know what is happening and are not interested. KQED (Dick Moore) would like something more than a straight show but as our time is too limited to make up something out of the ordinary he wants "big" people on it, including President Pitzer, Chancellor Heyns, a strike leader, an anti-strike leader, and journalists people. The earliest we can get air time is Friday night.

There is a possibility of sharing the regular Berkeley student news broadcast for a half hour. If KQED likes it they may put it on S.F. Mix. This will be a news program.

3) Radio--The Radio Project has reformed into a group to Organize the Informational System in the University and outside. Stanford has become the regional center for the ~~new~~ west coast (Calif. Oregon, Wash...) in a nationwide network of universities' communication involving Brandeis as the national headquarters with 12 regions.

This is what the initials stand for:

NIO: National Information Office
SPS: Strike Press Service (Chappelle Office)
PACC: Political Action Coordinating Committee
Cubberly Bldg. 1000

Here's a diagram of the Stanford operation:
