

The brown berets have come here tonight to give you a message. First a message to the Gavachos who are leading or involved in the struggle against R.O.T.C. Chicanos as a group, have not entered into this struggle not because we like R.O.T.C. or anything of the kind but because of the arrogance and racism always displayed by the so called white movement on this campus, the intellectual puto who carry on meeting after meeting like this one, deciding if it's o.k. to through throw rocks at some of them most savage barbarious killers the world has ever known. At every other campus in the Bay Area a struggle such as this one is not even entered into without first asking the position, support, and leadership of the national minorities. Here at Stanford, you racist Gavachos don't even acknowledge the existance of minorities. This was evident by the lack of participation on the part of gavachos, in La Semana De La Raza, . Yet, when you envite Jerry Rubin or some other puto here, then it's time for unity. Chingense!!

Message #2 is for puto Pitzer and his ass licking Board of misstrust. So far, the struggle here is mostly white, but we know that the army is not a white thing and that the largest group of people dying in Viet Nam is not white. 20% of all Chicanoxx G.I. sent to Vietnam come back to us in a box. You hypocritical bastards give scholarship to Chicano's and blacks and then you think we're going to let you train hired professional killers to exterminate us? CHINGA TUMADRE CAVRONES!! We're not stupid.

Stanford take notice;

IF YOU INTEND TO HAVE A PROFESSIONALLY TRAINED MILITARY UNIT HERE BEING HIRED TO KILL PEOPLE OF COLOR, THEN YOU WILL HAVE TO DEFEND THIS UNIT MILITARILY BECAUSE THE BEST THING WE CAN DO FOR OUR CARNALLES IS TO SEE TO IT THAT R.O.T.C. NEVER GETS A CHANCE TO USE THEIR TRAINING ON US.
