

STANFORD UNIVERSITY
STANFORD, CALIFORNIA 94305

COMPUTATION CENTER

Area Code: 415
Phone: DA 1-2300
Extension 2895

February 12, 1971

To All Users:

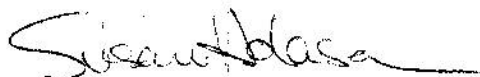

In order to make sure that there is no misunderstanding about our present policy on the use of the Campus Facility computer, I wish to remind you of that policy, the principal features of which are contained on the application form:

"To protect the University's obligation under the manufacturers educational allowance programs and non-profit tax-free position, the use of computers must be restricted to educational activity. This is defined as instructional or research use which is non-proprietary, publishable, and performed by the Faculty, Students or Staff. The Computation Center expects your cooperation in limiting the use to these activities or advising it of your use which does not meet this restriction."

In addition, users from non-University organizations are allowed to make use of the Campus Facility provided that they agree to abide by requirements which include this restriction.

Please note that this is consistent with the policy concerning research on Campus, particularly the requirements for openness of results consistent with the rights of the individual to privacy.

If your use does not meet with these requirements, then we must ask you to discontinue use of this facility. Any questions should be addressed to the Campus Facility Director, Extension 2897.

S. Kolasa, Director
Campus Facility
