

Wednesday morning the Advisory Board announced that it had voted five to two to recommend that Bruce Franklin be dismissed.

Bruce's firing is an attempt to put down that segment of the anti-war movement that believes that Stanford's participation in the War must be ended. Everyone opposes the War, it seems, but to do anything about it brings down the wrath of the Trustees, and administration, and now the majority of the Advisory Board.

We in the Young Crows are surprised and incensed by the Franklin verdict. We ask students, staff, and faculty to do three things:

- 1) Continue and intensify efforts to end the War, including action directed against Stanford's participation.
- 2) Explore the facts of the Franklin case. Discuss the case with your friends? What did Bruce do? Why is he really being fired?
- 3) Sign this petition.

WE THE UNDERSIGNED ASK THAT BRUCE FRANKLIN BE REHIRED.
