

Bruce Franklin was fired for opposing Stanford's complicity in the War during the Laos invasion.

Many of us supported and participated in the same protest, but Bruce has been singled out.

The decision to fire Bruce has been made by the University's hierarchy, not the people who work and study here.

Why have we been denied the right to hear Bruce?

Do the administration and the advisory board think that this will silence dissent?

With or without Bruce, we will continue.

REHIRE BRUCE!!! REHABILITATE THE UNIVERSITY!!!
