LAW and ORDER

The Members of the Fascist Liberation Party, as Loyal Americans and Students of Stanford University, hereby support and endorse the recommendations of the Community of the Right.

However, we feel that they have been far too conservative in their recommendations.

Therefore, for the preservation of the True Spirit of American Education and the Ideal of the Open Campus, we call upon President Pitzer and the University to urgently consider the following suggestions:

1. In order to counterbalance the vast preponderance of Socialists, Communists, Anarchists, and Liberals on the staff of the Hoover Institute and in the Humanities and Sciences faculty, the University should pursue an active program of recruitment of Fascists-in-Exile, both in the United States and in Argentina.
2. All male students should be required to enroll in ROTC as a demonstration of their loyalty to their country.
3. Any student who disrupts any Administrative Function of the University or any Legally Constituted Student Meeting should be expelled within 24 hours.

Concurrent with the issuance of these proposals, we shall distribute 100 puce buttons campus-wide. We ask that all Loyal American Students express their support for our proposals by wearing puce buttons.
